***Ds `Dries en Marlee Volschenk***

'Dries en Marlee is reeds 24 jaar, as voltydse werkers van CEF (Child Evangelism Fellowship), deel van Klipkerk Wêreldfokus en het vanaf 1 April 2001 met die werk in Fianarantsoa, Madagaskar begin. In 2023, 22 jaar later, het 'Dries die aanstelling as Nasionale Direkteur van CEF SA aanvaar en het hulle derhalwe permanent na Suid-Afrika teruggekeer.

Janrich Volschenk, oudste seun van 'Dries en Marlee, skryf as volg:

*As many of you may know, my mom, Marlee, has recently been diagnosed with leukemia. Our family is standing strong together through this difficult journey, but sadly, the road ahead will involve not only emotional and physical challenges, but also significant financial burdens. The estimated costs of chemotherapy, a stem cell transplant, and ongoing medical care are starting to feel overwhelming.*

*To help cover these expenses, we have set up a donation page for my mom through Back A Buddy, where we are raising funds for the "Mission for Marlee: A Journey to Healing" campaign. Any support—whether through a donation or simply by sharing this link—will make a world of difference for our family. We are deeply humbled and incredibly grateful for all the love and support we've received so far.*

*The Volschenk family would like to thank everyone who has kept my mom in their thoughts and prayers. We truly appreciate the kindness and support shown to us during this challenging time.*
